SALES
AND
PRODUCTION

SALES VOLUME

SALE QUANTITY (TONS)

REASON FOR VARIANCE – YoY

The sales revenue decreased by 22% primarily due to decline in sale volumes by 38% contributed by series of event such as flash floods, political unrest, record high interest rates and inflation, falling reserves and measures to control CAD by restricting LCs affecting overall supply and resultant reduction in GDP from 5% to 0.29%.

Prices on the other hand increased by 27% mainly due to rupee devaluation by 35% from 177 to 240, sharp increase in electricity cost from 21/unit to 29/unit, fuel prices and YoY inflation of 31%.

VARIANCE IN COST OF SALES

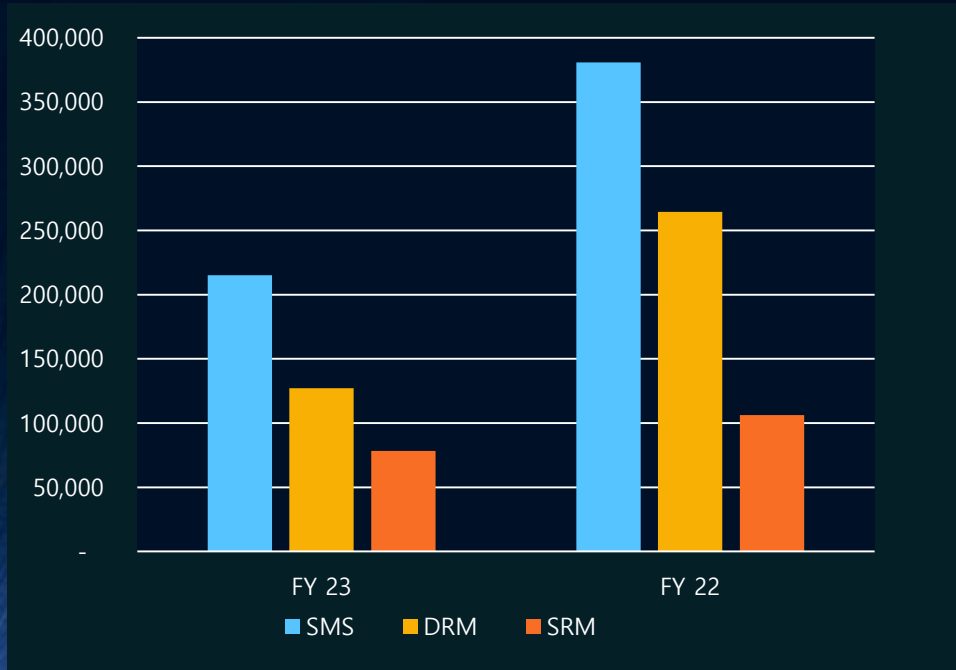

REASON FOR VARIANCE - YoY

Cost of sale on YoY basis increased by 24% on per ton basis. The major increase pertains to increase in scrap cost which contribute 60% in total increase. Rupee YoY depreciated by 35% from 177 to 240 whereas scrap prices decline by 11% from 543 to 484. Significant increase in electricity tariff from Rs. 21/KWH to Rs. 29/kwh representing 15% increase in total cost. Increase in fuel prices thereby increasing freight cost. Increase in depreciation to capitalization of IH and solar in June-22, decrease capacity utilization from 61% to 34% and resultant increase in fixed cost by 7% and increase in other cost due to yearly inflation of 31%.
